

HI THERE! MY NAME  
IS DOCTOR WOOF AND  
TODAY I WANT TO  
TELL YOU A LITTLE BIT  
ABOUT CORONAVIRUS

THIS IS HOW THEY LOOK LIKE, KIND OF, WEE WEIRDOS

WHAT IS A VIRUS? VIRUSES ARE VERY TINY MICROORGANISM THAT CAN CAUSE ILLNESSES TO PEOPLE. THEY ARE ALL AROUND US AND THEY ARE SO TINY THAT WE DO NOT SEE THEM WITH OUR PLAIN EYES. THERE ARE MANY DIFFERENT VIRUSES, THAT IS WHY WE GET FLU OR FEWER SOMETIMES.

RIGHT NOW THERE IS A NEW VIRUS ON THE WORLD CALLED THE CORONAVIRUS. WE DON' T KNOW A LOT ABOUT IT YET AND THAT IS WHY WE DO NOT HAVE A MEDICINE FOR IT AS WELL. CORONAVIRUS TOO CAUSES FEVER AND COUGH.

CORONAVIRUS CAN BE HARMFUL FOR THOSE WITH POOR HEALTH.

CORONAVIRUS SPREADS FROM PERSON TO PERSON FOR EXAMPLE WHEN YOU SNEEZE OR COUGH. THAT IS WHY THE BEST PROTECTION IS STAYING AT HOME AND WASHING YOUR HANDS THOROUGHLY SO THAT YOU AND OTHERS DO NOT GET ILL

ONE OF THE BEST WAYS TO FIGHT CORONAVIRUS IS TO WASH YOUR HANDS OFTEN AND WITH SOAP SO THAT THE VIRUS DOES NOT HAVE A PLACE TO LIVE. COUNT FROM 1 TO 20 EVERY TIME WHEN WASHING YOUR HANDS TO BE SURE THAT THEY ARE CLEAN!

ALTHOUGH CORONAVIRUS IS STRONG RIGHT NOW, AT THE SAME TIME ALL THE WORLDS SMARTEST DOCTORS AND SCIENTISTS ARE TOGETHER THINKING AND LOOKING FOR A NEW MEDICINE TO STOP CORONAVIRUS.

HELP YOUR OWN AND OTHERS HEALTH BY STAYING AT HOME AND WASHING YOUR HANDS.  
REMIND EVERYONE AT HOME ALSO TO WASH THEIR HANDS.

AT HOME YOU CAN  
DRAW, PAINT, READ BOOKS,  
BUILD FORTRESSES OUT OF PILLOWS,  
BUILD A SOAP BUBBLE MACHINE,  
PLAY HIDE AND SEEK,  
WRITE MUSIC, SING,  
COOK AND BAKE,  
BUILD A FUTURISTIC ROBOT,  
WHAT ELSE?

MADE AND ILLUSTRATED BY LIINA LEMBER / WITH THE HELP AND ADVICE FROM ENELY LÜISTE, L.M.L., HANNES LAAR JA ROSS GEMMELL, thank you!
